2024

In the catalog, each species photo is accompanied by its description. The code that is written down in the left column is the item code and it means that the specific item is in stock in our warehouse. An asterisk (*) at the beginning of the code or if there is no code at all means that the item is not ready-made but can be specially ordered for you at the factory. In several products, the factory code is also written below the code.

• Product descriptions, due to lack of space, are brief, but comprehensive.

• The dimensions of the product (width x depth | height or diameter | height) in cm, the capacity in cl or lt as well as the packaging of the product are indicated.

heart &SOUL

See, fall in love, inspire

HEART & SOUL offers trendy chinaware for the food service industry with a unique look and feel. Made by vitrified china for vibrant table settings, perfect match for regional to fine dining food styles.

Perfect Match collection

The shades of green, brown, and blue which are reminiscent of Mediterranean colors, the sea and the earth, can be combined harmonically leading to a unique feeling to your creations. Reactive glazes make unique effects which make the items one-of-a-kind, having the look of a handcrafted creation. The 25 items from the PERFECT MATCH collection come in five combinable colors.

Good to know.

HEART & SOUL offers a high-end presentation for your everyday needs, with intense and unique colors. All items are fired twice in high temperature of 1,200 °C which makes them robust and waterproof. The glaze protects the patterns, makes them completely dishwasher safe and also maintains the hygiene of the dishes. All items marked accordingly in the product overview come with a five-year edge impact guarantee.

PORDAMSA®

DESIGN FOR CHEFS

DINING COLLECTIONS 23.2

porcelain production

producción de la porcelana

MATERIAS PRIMAS 100% NATURALES

Elegimos el mejor caolín, cuarzo y feldespato, las materias primeras con las que se fabrica la porcelana, aportando un color blanco puro.

100% NATURAL RAW MATERIALS

We choose the best kaolin, quartz and feldspar, the raw materials from which porcelain is made. It gives the pure white colour.

HECHO A MANO

La fabricación totalmente manual nos da la posibilidad de asegurar el máximo cuidado de hasta el más mínimo detalle.

HANDMADE PROCESS

In-house manual manufacturing gives us the possibility to ensure maximum care to the smallest details.

PULIDO A MANO

Una vez seca, la porcelana se pule cuidadosamente a mano para obtener el mejor resultado después de la cocción.

HAND POLISHED

Once dried, the porcelain is carefully polished by hand to get the best result after firing.

ALTA TEMPERATURA

La porcelana de PORDAMSA se cuece a 1400ºC / 2552ºF. El resultado es un producto duradero, más resistente al astillado y de blanco puro.

HIGH TEMPERATURE

PORDAMSA porcelain is fired up to 1400ºC / 2552ºF. The result is a durable product, more resistant to chipping and pure white.

ORFEO

Orfeo en Griego (orphne) significa “la oscuridad de la noche”. Nos cautiva el juego de sombras y luces que inundan la oscuridad, y trasladamos su magia a la mesa.

Orpheus in Greek (orphne) means “the darkness of the night”. We are captivated by the play of shadows and lights that flood the darkness, and we transfer its magic to the table.

duna

Duna is a collection of organic and unique design inspired by the warm and sinuous shapes created by the dunes in the desert. Hand-modelled in white porcelain, it is a suitable collection for any gastronomic creation and also for sauces, thanks to its capacity. With an aesthetic design and high resistance, this collection offers a multitude of plating possibilities. Collection also available in matte finish.

ovo

Arte en la mesa
El huevo, uno de los elementos más recurrentes en las obras del pintor surrealista Salvador Dalí, se convierte en un recipiente donde presentar todo tipo de degustaciones.

Art à la table
L'œuf, un des éléments les plus présents dans les œuvres du peintre surréaliste Salvador Dalí, se transforme en un récipient où l'on peut présenter tous types de dégustations.

Art on the table
The egg, one of the most recurring elements in the surrealist artist's works Salvador Dalí, becomes a container in which all kinds of tastings can be served.

moelle

Jugando con las presentaciones
Diseñada a partir de un hueso de ternera y compuesta por tres elementos, Moelle reforzará aquellos conceptos gastronómicos basados en la carne y sus jugos.

En jouant avec les présentations
Conçue à partir d'un os à moelle et composée de trois éléments, Moelle renforcera ces concepts gastronomiques basés sur la viande et ses jus.

Playing with presentations
Designed from a bone of veal and made of three elements, Moelle will add strength to gastronomic ideas based on meat and meat juices.

arbre

El alma del árbol
A través de esta colección, queremos trasladar la magia del bosque a la mesa. Los anillos de sus árboles se mimetizan en cada una de sus piezas dando forma a una colección orgánica.

L'âme de l'arbre
À travers cette collection, nous souhaitons déplacer la magie du bois à table. Les anneaux de ses arbres font du mimétisme dans chacune de ces pièces en formant une collection organique.

The soul of the tree
This collection brings the magic of the forest to the table. Tree rings are imitated in each piece producing an organic collection which allows boundless presentations.

terra

Paisaje lluvioso
Su tonalidad marrón junto a las gotas de agua que se reflejan en cada pieza conforman el concepto de la colección inspirada en la 'tierra húmeda'.

Paysage pluvieux
Sa tonalité brune avec des gouttes d'eau reflété dans chaque pièce composent le concept de la collection inspirée par la «terre humide».

Rainy landscape
Its brown tone together with the water drops reflected in each piece, conceive the concept of the collection inspired by the 'wet earth'.

Luigi Bormioli

Luigi Bormioli is a specialized glass factory that manufactures high quality containers for perfume and alcoholic beverages, as well as tableware in superior crystal glass which does not contains led.

Following in the steps of timeless tradition, the Bormioli family continues to uphold the ever topical and fascinating challenge inspired by the art of glass-making.

Bormioli Luigi numbers over 1,000 employees and produces 250 million pieces per year on twenty moulding machines under five furnaces located in two facilities: Parma and Abbiategrasso, near Milan.

Manufacturing capabilities and technological excellence allow us to cope with both enormous volumes and specific needs for smaller lots.

Paşabahçe
LIVE BEAUTIFUL

DRINKWARE

STEMWARE & TUMBLERS

The presentation of a beverage is as important as its consistency, taste, and aroma. The aesthetic appeal of the glass design attracts the eye and prepares the palate for a delicious drink. Glasses particularly designed according to the various types of drink create a more delicious, hence enjoyable, tasting experience. For some drinks, a glass with a full round bowl that reveals the aroma is desirable; while for others, a narrow-styled glass is more suitable. With its designs ranging from classic to modern and its wide product range, Paşabahçe augments the pleasure of drinking.

LIBBEY

Cheers to the Spirit of Hospitality

EMEA FOODSERVICE COLLECTION 2022
June Update

LIBBEY.

Cheers to

For over 200 years Libbey has been an expert in producing glassware for professionals. We offer a variety of glassware, from functional stackable tumblers to elegant lightweight wine glasses and distinctive showpieces which fit the latest trends. We work closely with the spirited foodservice professionals to ensure our glassware meets their needs. Each new introduction is adapted to the evolution of consumers' behavior and to the constant changes in the market. In this summer update we are introducing several new items and product families, be sure to check our new sturdy stemware range Endura (P.69), the new SPKSY Fizz Coupe (P.102), the novelties in Bespoke range (P.126) and the new warm beverage range Sentido (P.172).

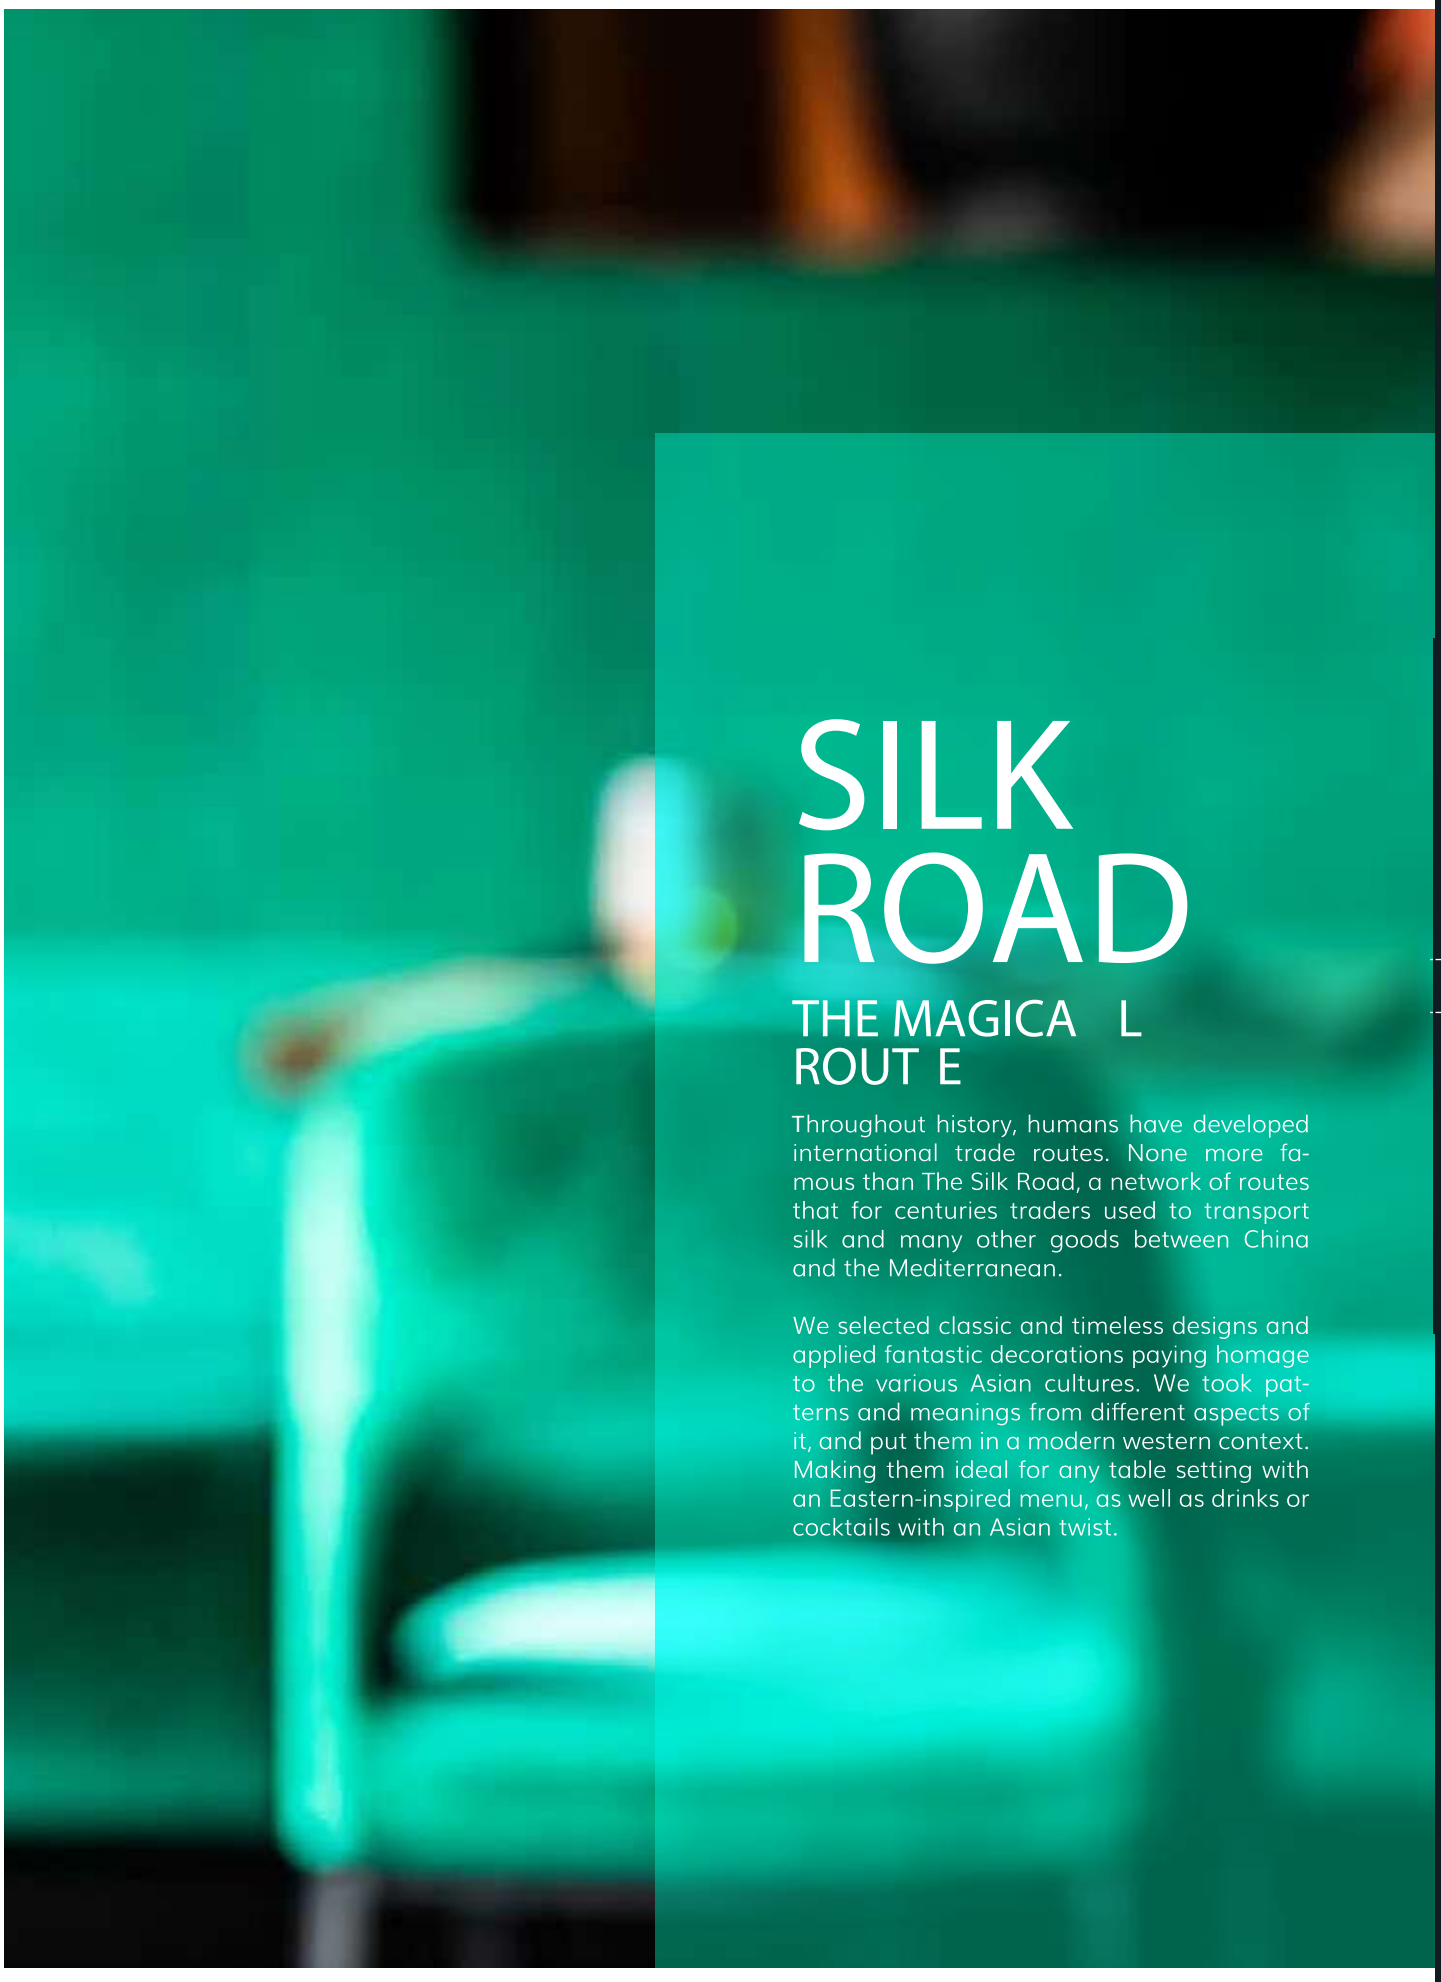
During our 200 years history we have rarely seen anything similar to the change the COVID-19 pandemic has brought. Our industry has showed to be amongst the most resilient and creative out there innovating to adapt to the difficult situation and serving customers in new ways. We are happy to see that restrictions are easing in most of the markets we serve and look forward to circumstances normalizing in the coming months.

So as we join you on the road to recovery we raise these glasses to all of you and say "Cheers to the Spirit of Hospitality!"

Libbey offers a wide assortment of high-quality, strong glassware backed by equally strong guaranties. Did you know that with our DuraTuff treatment you don't have to compromise on strength? This is highly convenient for stackable glasses, which need to be able to deal with the wear and tear of daily life in all sorts of demanding settings. Check out pages 4 and 5 for more information about Libbey's DuraTuff treatment and guarantees. Libbey offers a variety of glassware, adapted to the evolution of consumers' behavior and to the constant changes in the market.

Royal Leerdam has a rich history spanning over almost 140 years and is known for its exquisite designs and tendency to pay attention to even the smallest of details. Deeply committed to delivering perfect designs that will meet the needs of the hospitality industry, Royal Leerdam's glassware combines elegance with highly functional qualities. Needless to say we are very eager to show you what we have to offer.

LIBBEY



SILK ROAD

THE MAGICA L ROUT E

Throughout history, humans have developed international trade routes. None more famous than The Silk Road, a network of routes that for centuries traders used to transport silk and many other goods between China and the Mediterranean.

We selected classic and timeless designs and applied fantastic decorations paying homage to the various Asian cultures. We took patterns and meanings from different aspects of it, and put them in a modern western context. Making them ideal for any table setting with an Eastern-inspired menu, as well as drinks or cocktails with an Asian twist.

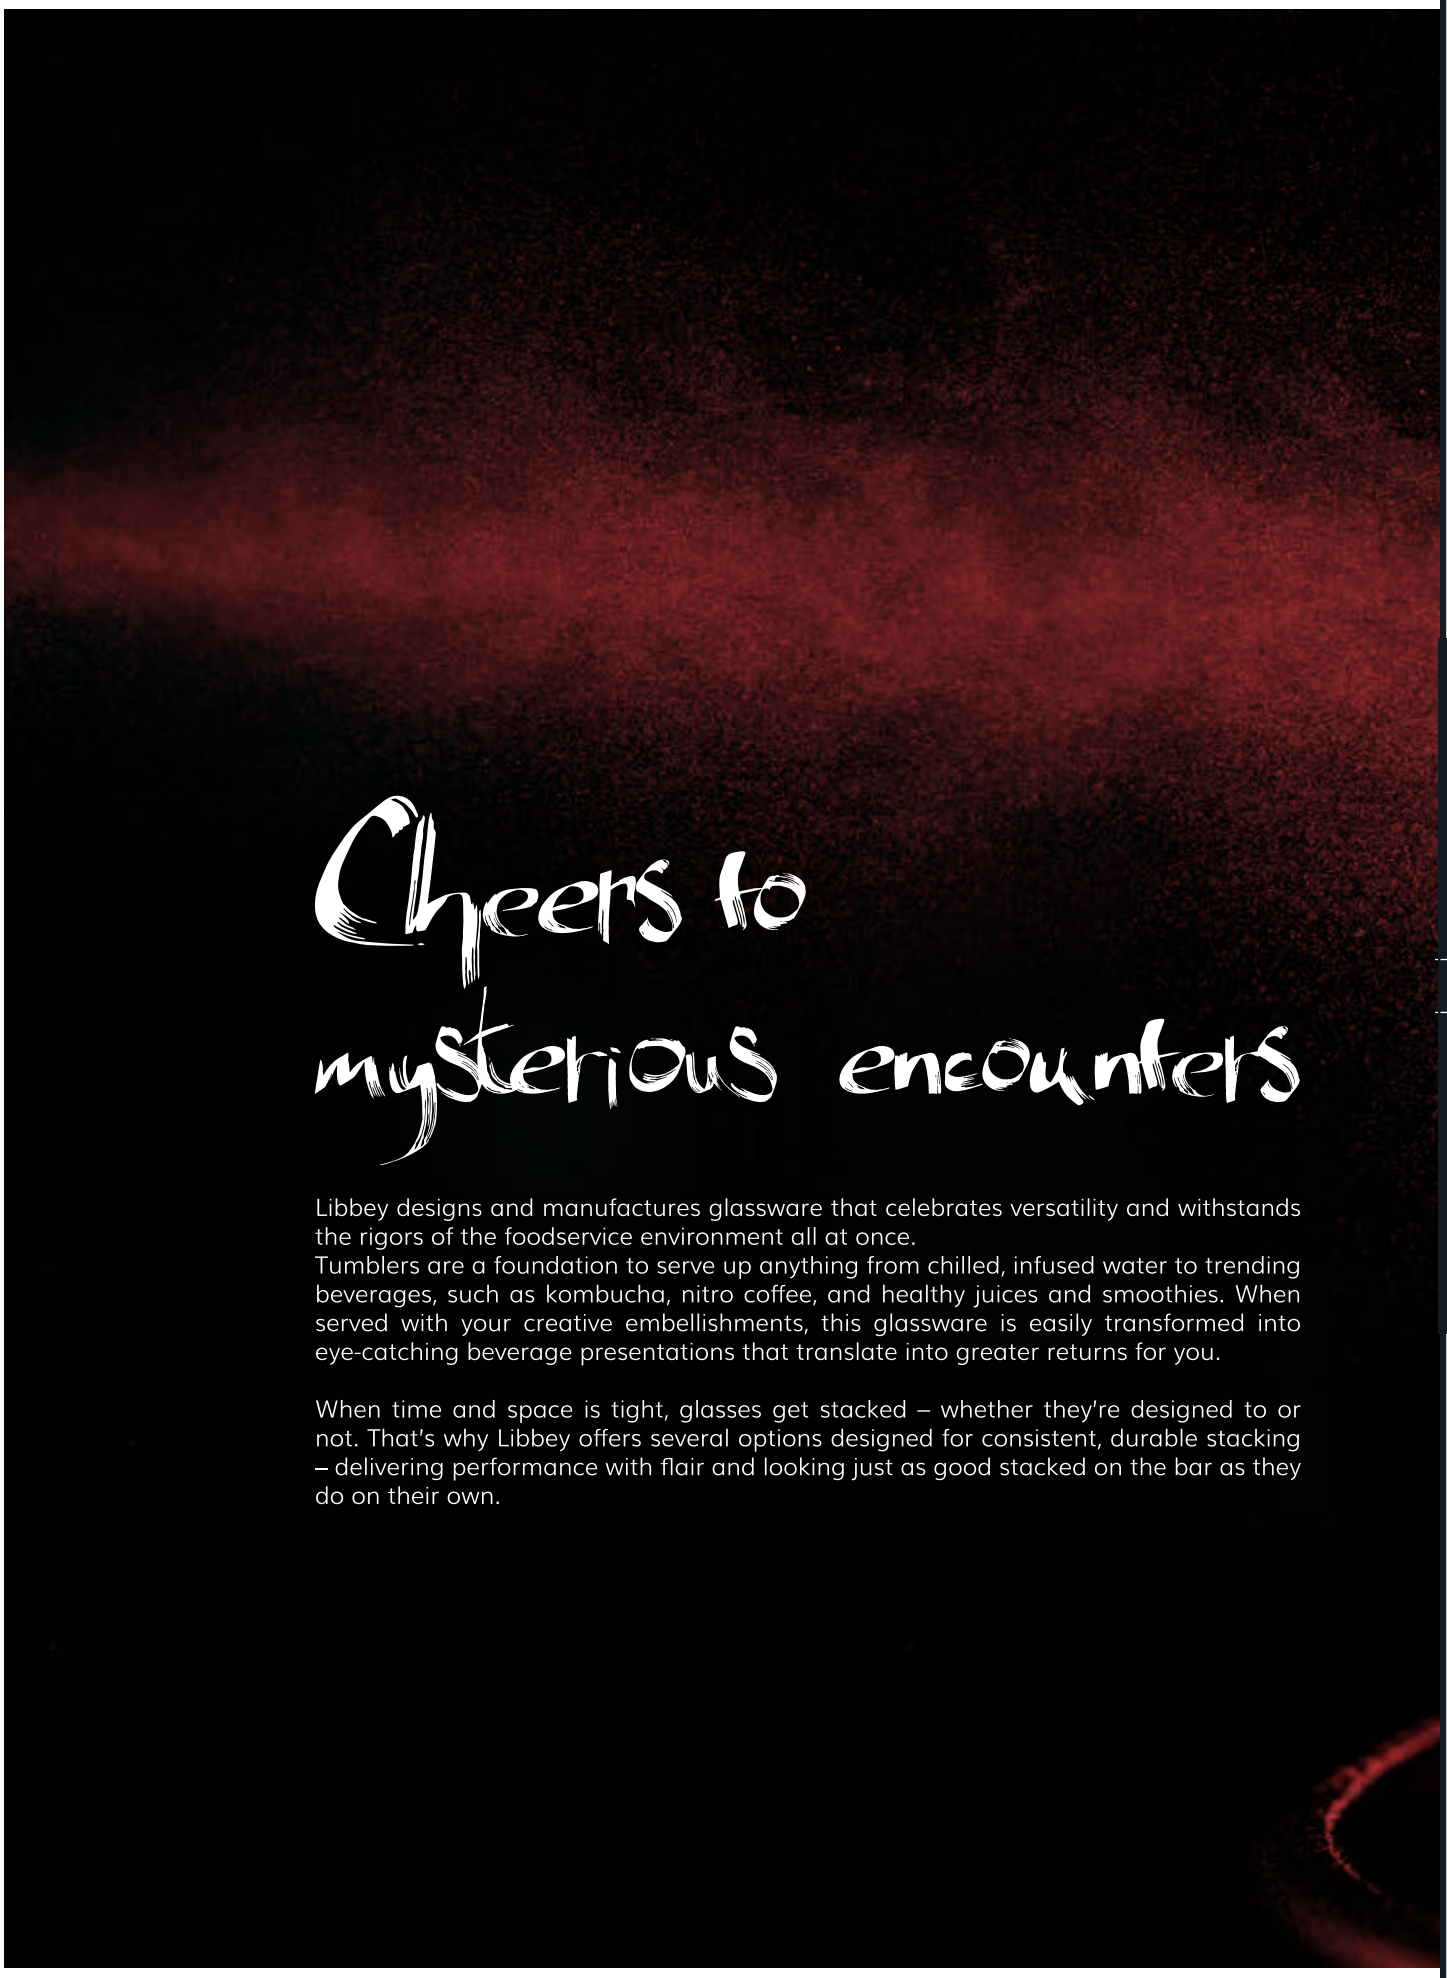
EXCLUSIVE LIMITED EDITION EXCLUSIVE

NIHO

NIHO

The range consists of 4 beautiful decorated glasses, each with a great and meaningful story. Geisha, which literally means 'person practicing the arts', refers to women who dedicate their lives to traditional Japanese arts, using their talents to entertain distinguished clients at banquets and shows. The Koi is a fish with a rich history in Chinese and Japanese cultures. Legend has it that the koi fish embodies determination, dedication, perseverance and success. The Dragon, possibly the best-known symbol of Chinese culture represents success and being destined for a great future. Cherry Blossom is Japan's national flower, but also abundant across China. In Japan it represents the ephemeral nature of life and in China, it is a symbol of both power and feminine strength.



Cheers to mysterious encounters

Libbey designs and manufactures glassware that celebrates versatility and withstands the rigors of the foodservice environment all at once.
Tumblers are a foundation to serve up anything from chilled, infused water to trending beverages, such as kombucha, nitro coffee, and healthy juices and smoothies. When served with your creative embellishments, this glassware is easily transformed into eye-catching beverage presentations that translate into greater returns for you.

When time and space is tight, glasses get stacked – whether they're designed to or not. That's why Libbey offers several options designed for consistent, durable stacking – delivering performance with flair and looking just as good stacked on the bar as they do on their own.

STEMWARE

Stemware is a choice vessel for wine, champagne and even trending cocktails and mocktails – bringing to the party endless possibilities to enhance your presentations and maximize aroma and flavor.

Create eye-catching presentations in glassware that entice guests to explore and linger. You'll find that stemware can be the focal point of your integrated table and bar, commanding premium beverage pricing. Ranging from luxury to everyday, our broad selection of industry-leading stemware patterns and price points includes the right glass for what's trending.

ONE-PIECE TOUGH

One-piece stemware is one of Libbey's best selling stemware products for good reason. It is specifically designed for high-turnover, fast-paced restaurant operations where safety and durability are of utmost importance.

One-piece stemware is inherently stronger than other stemware. Formed from one piece of glass, there are no weak points where stem and/or foot are joined with bowls. Libbey's precision burners produce a rim with a minimum bead and a rounded foot that is more resistant to unsightly chipping. The glass is also designed to be thicker at the contact points for added strength needed in rigorous handling. Longer product life means more savings and more profit per serving for operators. In fact, your investment starts paying back profits after just one serving. And Libbey feels so strongly about one-piece construction, it has backed it with the exclusive Safedge® Rim and Foot guarantee.

One-piece stemware strikes the perfect balance of weight, functionality, and aesthetics. It's the proven leader in the industry for durability and reliability.

Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

COCKTAILS

Signature drinks demand signature glasses. Using the right glass to showcase all your craft spirits or exclusive recipes creates the most memorable impression possible in taste, appearance and perceived value. Create buzz around your cocktail menu by elevating presentations that command premium price. Big reaction preparations, glamorous cocktail displays and locally crafted vibes, Libbey has it all right here for you.

Unique designs inspire your creativity, reflect trend insights and celebrate your bottom line. From standard rocks to luxury stemware, Libbey offers a comprehensive selection of cocktail glassware to set your beverage menu apart.

MODERN AMERICA

The Modern America range is a revival of th company's historical 'Modern America' range inspired by America's first fine handcrafte glass. Libbey has reinvented this iconic rang to meet the demands of today's customers These tumblers are ideal for all types of drink (except hot drinks).

MODERN AMERICA

● Safedge® Rim Guarantee

MODERN AMERICA

The Modern America stemware range comes in five different shapes: the Coupe, Cocktail, Nick & Nora, Gin Tonic and Martini. The tall & bold stem along with the sturdy foot portray the Art Deco Buildings (Empire State Building and Chrysler Building) which have become unmissable landmarks in New York City. The sleek and curvaceous silhouette of the bowl make these glasses the perfect choice when serving and sipping exquisite liquors, wines and cocktails.

SWAY

Sway is a graceful yet striking coupe. It evokes an era of bygone elegance, with echoes of Art Deco in the curved lines and polished finish.

The waves in the form give a sense of rippling motion which creates a unique and very powerful effect. While the rounded rim provides an almost sensuous contact with the lips that lingers and deepens the drinking experience.

THE GATS

The Gats was the winning concept of the second edition of the Glassology Design Contest. Creator Yochen Verbeeck from Belgium enchanted the judges with his great story and beautiful creation.

The Gats was inspired by three different sources. First of all the golden age of Art Deco – seen in the smooth, curved lines and polished surface. But Yochen was also inspired by "The Great Gatsby", F. Scott Fitzgerald's landmark novel set in the glamourous Roaring Twenties in New York – captured in the elegant and stylish details: mysterious and understated, just like Gatsby, the novel's hero. A third source of inspiration came from a vase that was always filled with fresh flowers in the house of Yochen's grandmother.

THE GATS

DIVERGENCE

Divergence is a concept developed for the first edition of Libbey's Glassology contest by Belgian designer, Dries Vanlerberghe.

Convinced that ergonomics are key to a perfect design, Dries created a glass that feels right in your hand, while honoring one of the greatest glass forms: the old-fashioned. Why the old-fashioned? Dries loves its ability to combine elegance with robustness and delicacy with tactile presence. The result was Divergence, a glass with two distinct elements. On the one hand, the physicality and geometric forms of Cubism. On the other, a polished upper-half lifting our eyes to the rim of the glass, just as the Big Apple's Deco buildings lift our eyes skyward.

It's a glass that invites you to grasp it and bring it to your lips. Its design might be based on a Divergence of two styles, but fill it with the right drink and everything converges into a truly satisfying sensory experience.

CARATS

RADIANT

The brilliantly cut star, the wide diamond cut band that frames the pattern, the thickness of the glass and its elegant looks: everything about Radiant says Vintage.

Besides a D.O.F. and a Cooler, which makes Radiant ideal for a wide variety of beverages, the range has been extended with a decanter. The decanter with glass stopper shows the same star pattern and radiates the complete range of prismatic colors across any room. The decanter is very suitable for whiskey, but can also be used for many types of alcohol, such as vodka, gin, rum, tequila or bourbon.

KAHIKO

KAHIKO

The legendary Tiki bartender, Daniele Dalla Pola, helped us develop the iconic Kahiko decorations to reflect the rich traditions and culture of the Pacific Islands.

Kahiko Mai Tai draws on the traditional TAPA patterns of islands like Tonga, Samoa and Fiji where its seen on everything from cloths to traditional tattoos.

Kahiko Zombie plays that typical two-faced Tiki trick with a sensuous, ukulele-playing wahine on one side and a scary shrunken head on the other. But however you look at it, it's the perfect way to serve a cocktail filled with Pacific promise.

ESPERANTO

With the Esperanto range Libbey introduces a product family which centres on the words easy and universal.

The family sits on a short stem, raising not only your beverage services but your presentations too. In addition the short stem makes the glasses easy to use in foodservice handling and serving. It's wide diameters facilitate adding ice and make them easy to clean.

The smaller capacities lend themselves for spirits and liquors as well as a side water glass. The intermediate capacities suit a wide range of wines, fortified wines and soda serves. Beers and cocktails are right at home in the middle to high capacities.

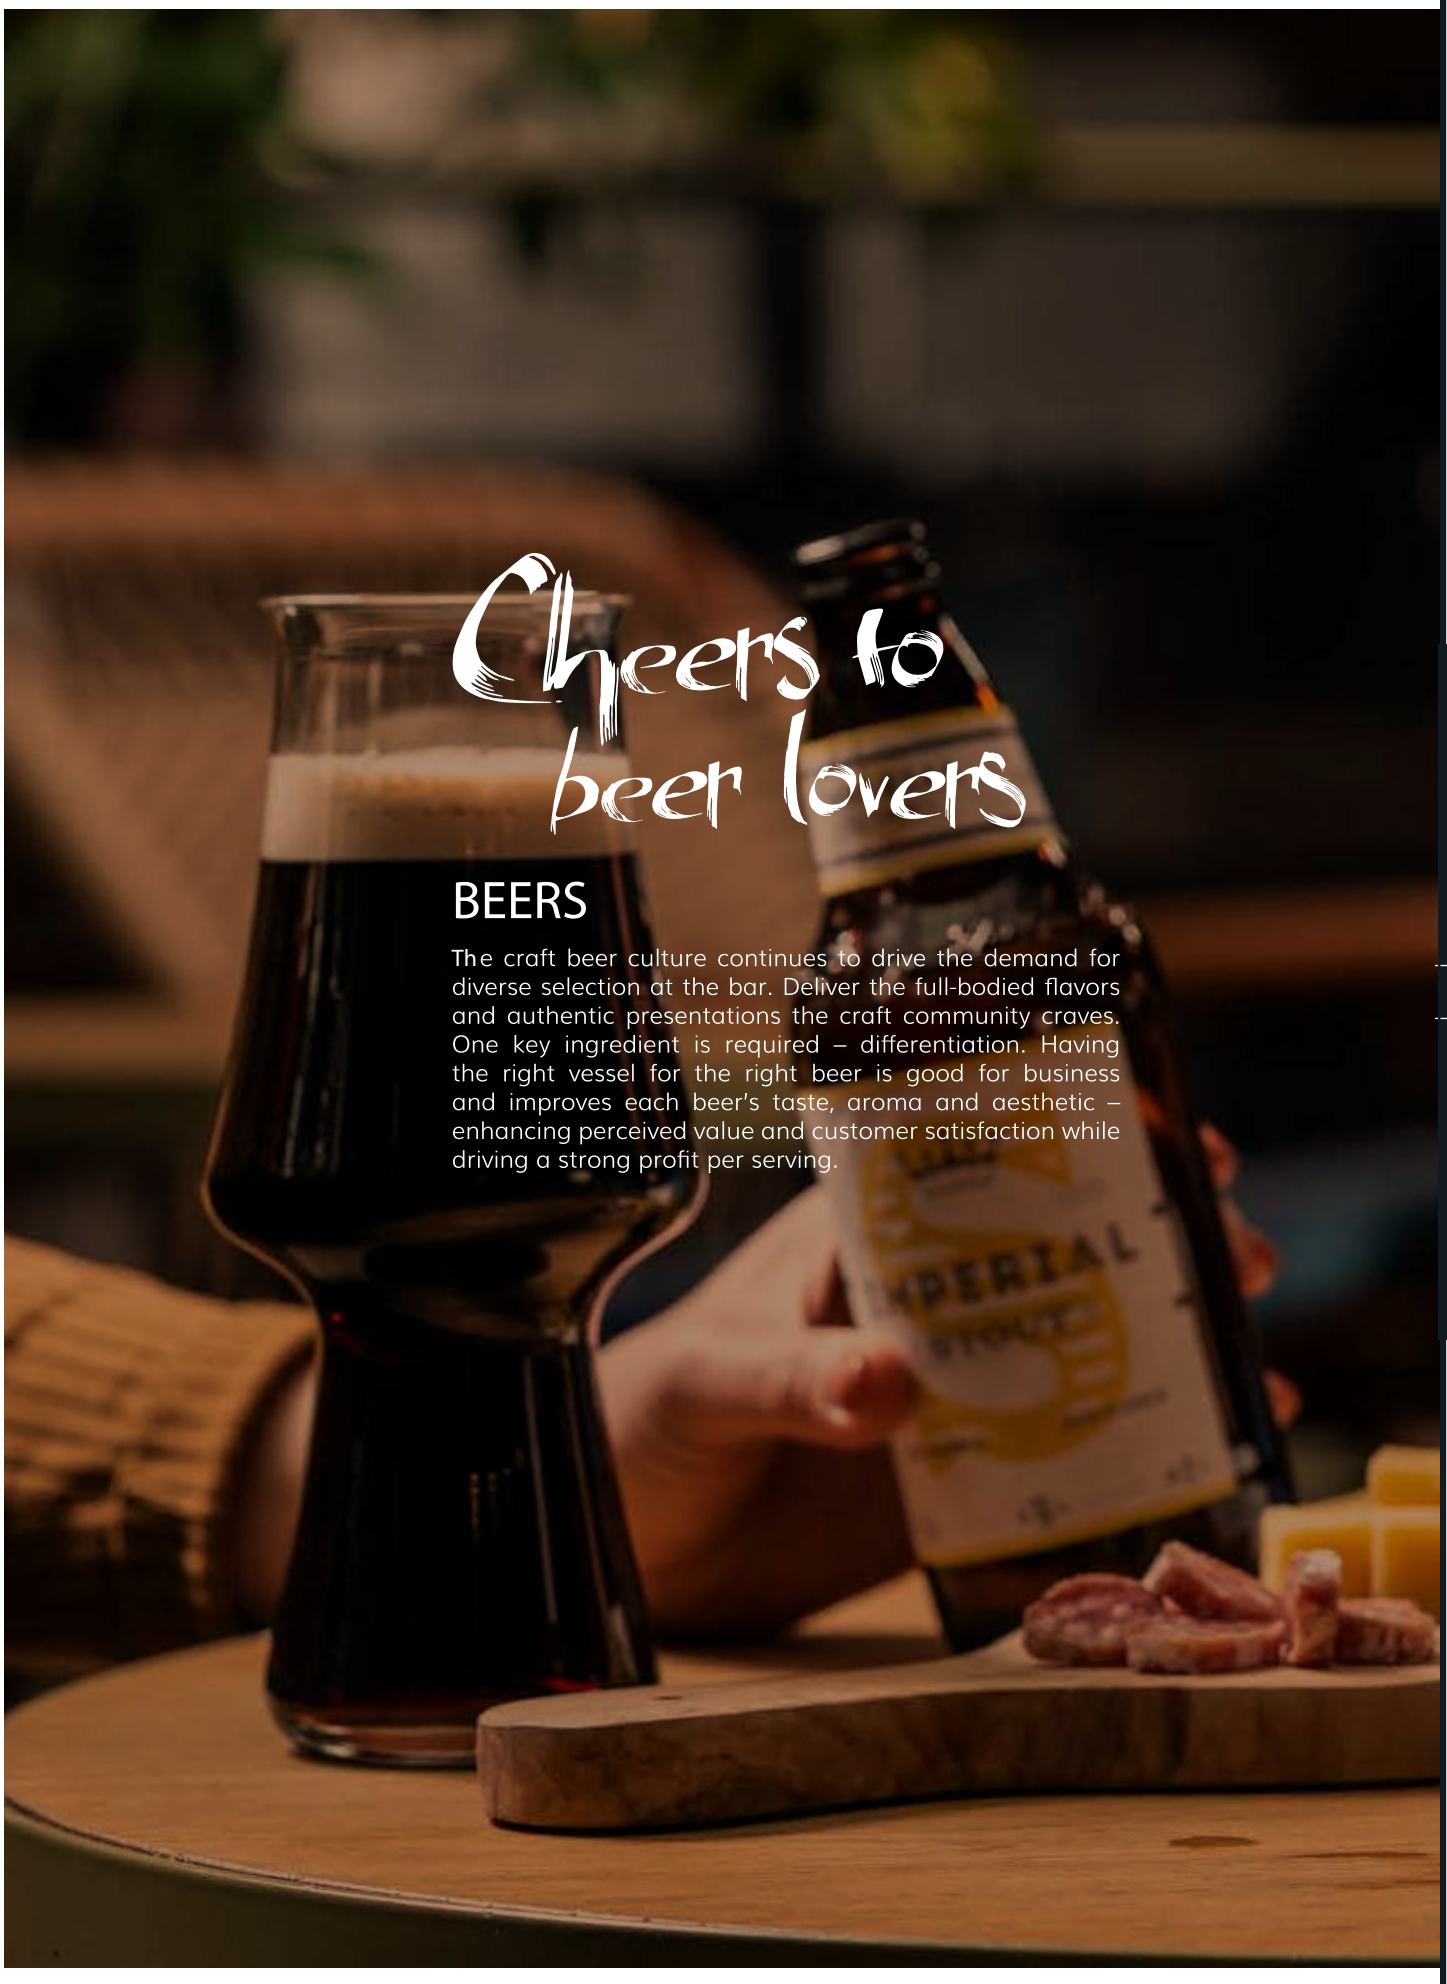
MIXING GLASSES

✚ DuraTuff



Cheers to beer lovers

BEERS

The craft beer culture continues to drive the demand for diverse selection at the bar. Deliver the full-bodied flavors and authentic presentations the craft community craves. One key ingredient is required – differentiation. Having the right vessel for the right beer is good for business and improves each beer's taste, aroma and aesthetic – enhancing perceived value and customer satisfaction while driving a strong profit per serving.

ARÔME

The Arôme range has been extended also to the beer segment. The convex shape of the bowl has been carefully design to allow the aromatic complexity of any beer to stand out and it's narrower opening helps to concentrate the foam on the top of the glass.

ANDER
PACKAGING

AnDer Beer glass is the best beer tasting glass for brewers, crafted beer producers and beer aficionados. It's a co-creation by Royal Leerdam, Derek Walsh (beer consultant) and André Köppen (beer sommelier).
The smaller capacity is suitable for professional tastings and small serves, where the other two glasses offer a full bottle size.
AnDer enhances the flavors and aromas of any type of beer you use it for, such as Lagers, Wheat Beers, IPAs, and craft beers in general.

ANDER

Glassology

LIBBEY

The Glassology Contest challenges professionals working in the Drinks Industry, to develop, create and offer the ultimate drinking experience for high-level guests. They are given the opportunity to create their ultimate glassware design that will lift a reinvented cocktail, their newest boozy creation or just a cup of coffee to a whole new level.

The winner earns global recognition, as the winning glass design is taken into production to be sold all over the globe by Libbey. The winner also has the honour to name the glass, receives free pieces of the winning design and is one of the members of the jury in the next Glassology Design Contest. Last but not least the winner also acts as the Glassology ambassador at the renowned Tales of the Cocktail in New Orleans.

Winner 2016
On the 17th of May, during Lisbon Bar Show 2016, Robert Schinkel from The Netherlands was named the winner of the first Glassology design contest with his Tulip Punch Bowl.

Winner 2018
With his art deco design called 'The Gatsby' Jochen Verbeeck was crowned the winner of the second Glassology Design Contest held at The Perfect Serve Bar show. Former winner Robert Schinkel handed over the trophy.

«Hevea»

to keep bottles cool

PEDRALI

designed by
Victoria Azadinho Bocconi

05.52003
set of st.steel black stand and PP bucket
34x42,5 cm | 85 cm
pack: 1

4
05.52004
PP bucket,black
21 cm | 20 cm
pack: 1

The Hevea ice backet set consists of the powder coated metal stand and the bucket made by polypropylene.The bucket is hanged on the stand with a metal hook and is easily removable. Minimal design in two colors white and black,also suitable for outdoor use.

It can be used as double by adding another bucket, which is sold separately.

non-stick pans
«Choc intense» induction *non-stick*

ceramic electro gas induction

This range with a chic, industrial design combines a deep black base with gloss polished stainless steel handle and definitely does not compromise on performance. The forging process makes the aluminum harder and more durable. A next generation ultra-thick reinforced non-stick coating gurantees unparalleled effectiveness and high resistance to abrasion. Perfect for delicately cooking without coloring fish, vegetables, legumes and grains.

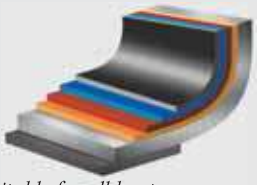
«Titanium professional» induction

τηγάνια cast aluminium
cast aluminium frying pans

ceramic | electro | gas | induction



SAVE ENERGY

Made of cast aluminium, suitable for all heat sources and even suitable for use in ovens (up to 250°C). Handle is made from 18/10 stainless steel. The «Whitford Xylan» non-stick coating has a high temperature resistance (up to 250°C). Adhesion of the non-stick coating is improved by a layer of titanium between the aluminium and the coating.

silikomart®
professional

We give shape to your emotions

We shape your emotions

For over 20 years Silikomart designs pastry-making moulds and transforms the creativity of some of the greatest pastry chefs of our time into extraordinary and revolutionary works of art.

Silikomart offers a wide range of refined and innovative products, with a functionality, practicality and beauty which meet the needs of all those who love pastry and cooking. The use of silicone in the kitchen provides excellent results and significant advantages. Silicone is heat resistant, flexible and non stick and can be used with temperatures ranging from -60°C to +230°C. Safety, quality and performance, combined with the unique design of products, makes Silikomart the leading specialist of culinary silicone use. Silikomart is providing inspiration and a help to gastronomy lovers and those who wish to approach this new world.

CAMBRO®

From Dock to Dining plate. Food enters from the receiving dock and goes to dry and refrigerated areas, to walk in freezers areas, to prep areas, to production /cook's line, to serving stations to Dinning and after to dish area. All this journey of food has to be monitored by appropriate procedures ,guidelines, using tools and gadgets that made for promoting the safeness and hygiene of food.

Shelving for Life
Storage redefined

With three distinct lines of Camshelving, all kitchens are created equal! Every foodservice operation deserves to be set up for maximized cost savings, space efficiency, sanitation, food safety and functionality no matter what the size or budget. Camshelving storage systems make it all possible, helping foodservice operators optimize organization, support food safety, improve labor savings, simplify inventory management, reduce food waste, and eliminate replacement costs.

Key features of all camshelving series

- ***Rust and Corrosion Free.*** *Backed by a lifetime warranty against rust and corrosion, Camshelving storage systems eliminate the inconvenience and costs associated with restoring or replacing degraded shelving. Only Cambro offers Shelving for Life.*
- ***Multi Environment Use.*** *Camshelving storage systems are designed to withstand all extreme storage applications and temperatures - impervious to moisture, chemicals, salt, food acids, and humidity. Camshelving systems can be installed anywhere and will never rust.*
- ***Maximized Space Utilization.*** *Components have been thoughtfully designed to maximize storage space, even in space-restricted areas.*
- ***Shared Post.*** *Space is money. Shelving units are designed to be interconnected, without compromising weightbearing capacity all while maximizing usable storage space.*
- ***Easy to Clean.*** *Cleaning shelving shouldn't be a major production. Whether daily or scheduled, cleaning can be done quickly and easily without interrupting storage space or normal, day-to-day operations.*
- ***Easy to Adjust.*** *Each shelf can be easily and independently adjusted to accommodate a variety of storage products and packages as product and storage needs change.*
- ***Corner Shelf Space.*** *Convert unusable space into continuous, easy-access storage areas using corner connectors.*

Cambro offers three rust-free, non-corrosive, hygienic shelving systems that will hold up to the tough demands of commercial foodservice operations. Only Cambro offers Shelving for Life.

Premium Plus. *High-volume foodservice operations with constant loading and off-loading of heavy products. Frequent and/or multiple daily deliveries. Posts and traverses are made from a steel core with smooth polypropylene exterior. Superior strength and durable enough to withstand the heaviest loading demands.*

Element series. *High-volume foodservice operations with constant loading and off-loading of medium to heavy products. Posts and traverses are made from a revolutionary composite material that is light in weight yet strong enough to withstand rigorous loading conditions.*

StoreSafe STORE FRESH

«CamSelving» «Basic Plus»

Just because the budget is tight and storage needs are less rigorous, it doesn't mean that shelving performance and storage efficiencies should be compromised.

Basics Plus Series is made from the same high performing, strong composite material as Elements Series and has the same design features. It's lighter in weight and less in cost but still strong enough to handle light to medium storage demands.

therefore the cost is lower. The weight is lighter

but Basic Plus is strong enough to handle significant weights and scores excellent performance in hygie space and food.

Installation is easy. Plenty of unit combinations available. Shelves in 7 different lengths and 4 depths..

Unit heights and strength..

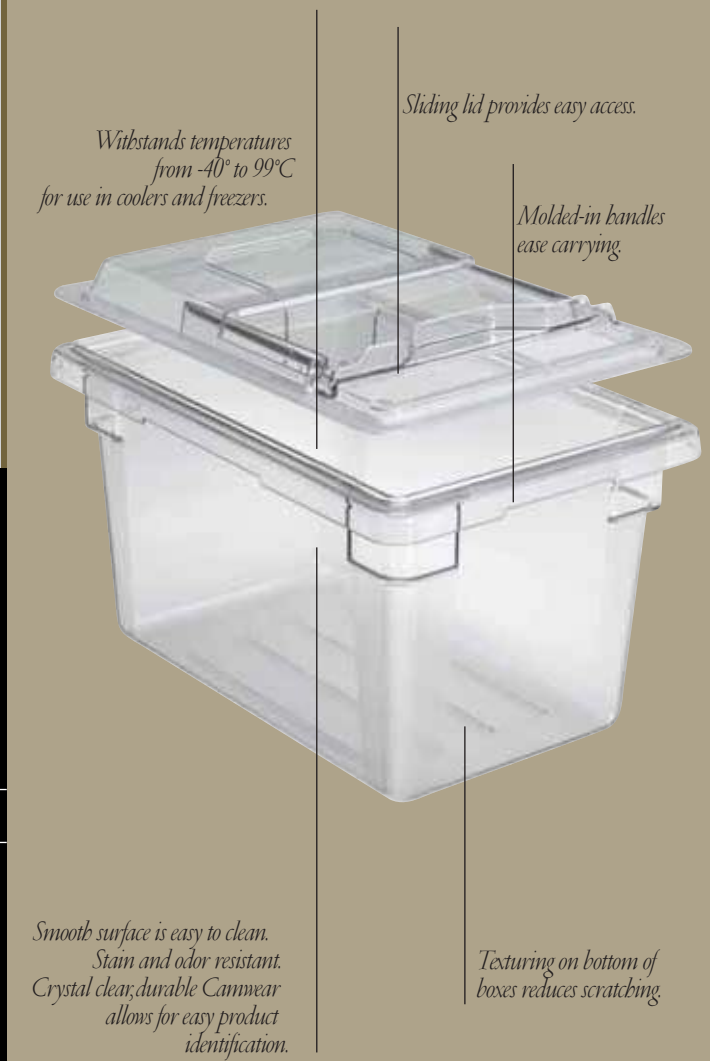
3 fixed units: 1.63 - 1.83 - 2.14 m.

Shelf 190 kg total 800 kg.

1 mobile 1.79m (with wheels), 340 kg total.

Free design.

Call us to find the solution to your needs and design your own shelving system to your own measurements both functionally and economically.



«CamWare®»

StoreSafe STORE FRESH

Extend the freshness of ingredients and eliminate points of cross contamination by transferring product into food boxes at the receiving dock. A safe solution for storing bulk fruits and vegetables. Clear Camwear allows visibility for product identification. Snap tight Camwear covers or SlidingLids™, sold separately, won't come off during transportation.

«High Heat H-Pans»

δοχεία GN
GN food pans

Reduce handling and save expense with one pan that can go from prep to cooler to oven to steam table. H-Pans are designed to Gastronorm GN specifications. Unlike metal pans, H-Pans are safe for use in heating and holding applications. Ideal for heated carts, steam tables and chafing dishes. H-Pans have both standard and metric graduation markings to promote easy inventory management.

ERGONOMIC HANDLES
Comfortable handles allow easy and safe lifting of the Cam GoBox.

STACKABILITY
Cam GoBoxes inter-stack and also stack with major competitive brands.

EASY IDENTIFICATION
A built-in label area keeps plastic menu tags (included for EPP300 and EPP400) in place for easy content identification or routing. StoreSafe Labels can also be used with Cam GoBoxes.

EASY LOADING AND UNLOADING
Interior wall recesses make loading and unloading easy for both GN 1/1 as well as 1/2 pans.

4-SIDED HANDLING
Thoughtfully designed built-in handles along the top of front loader units allow them to be easily carried from all four sides.

GENTLE OPEN AND CLOSE
Beveled door edges ensure door can be easily closed and latched.

Cambro GN Food Pan and Seal Cover for the ultimate food safety solution. Cambro GN pans protect food and carrier to support HACCP compliance.

FULL 270° ACCESS
Durable hinges and latches allow the door to open 270° and remain open securely to the side of the front loader for easy access to products. Latches keep door securely closed during transport.

temperature maintenance - optimal performance

By properly using the space of the chamber and the suitable partition that you can optionally obtain, you achieve the maintenance of the desired temperature for a longer period of time, avoiding the unpleasant consequences.

All isothermal containers are designed to have enough space for the GN containers and for the heating or cooling element (Camwarmer or camchiller) when desired. Better results are achieved when GN containers that will be placed isothermal containers have a temperature between 82°C. and 88°C. GN metals at temperatures above of 120°C. will cause damage to the isothermal containers.

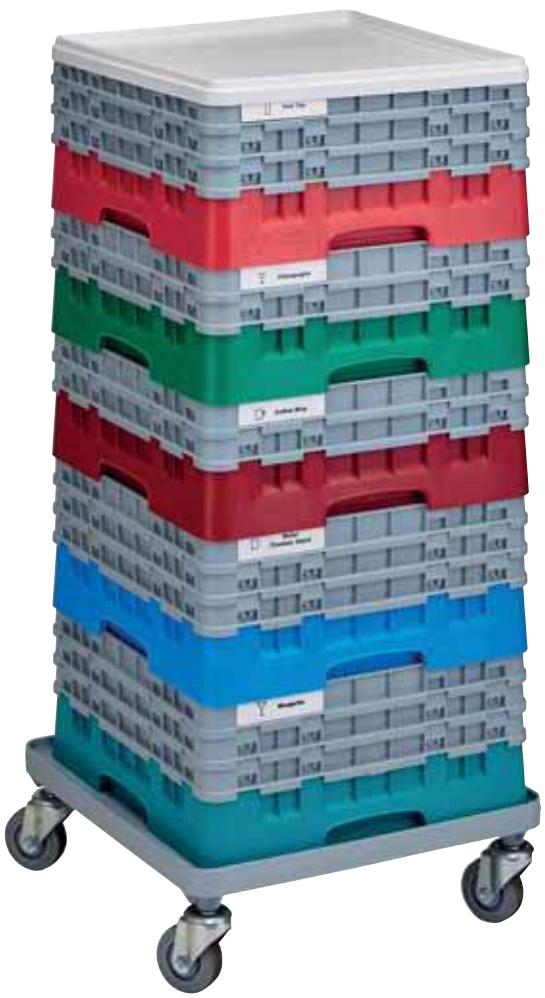
HACCP

CAMBRO

The Camrack System will protect glassware and keep it clean until the next event, eliminating the need for rewashing.

- *Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying.*
- *Closed outer walls keep fingers and contaminants out and reduce risk of breakage and injury. The Camrack cover and Camdolly make this system completely enclosed. Glassware stays clean when in storage, so operators will only have to wash items once.*
- *A variety in base rack colors help identify at a glance both contents and quantity per rack. Available in 10 colors.*
- *Camracks can be transported across large campuses or to off-site locations in one single unit. Easy to grip handles and smooth overlapping sides facilitate safe handling.*



NO *dirty hands*

NO *bacteria*

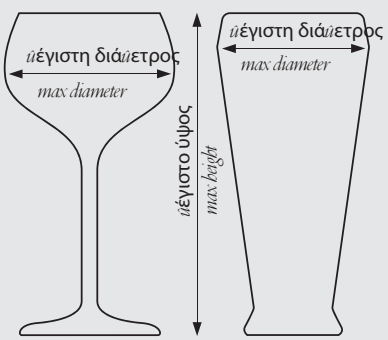
ΟΧΙ τρωκτικά
NO *robents*

NO *bugs*

NO *dirty mop water*

CREATING THE RIGHT CAMRACK

- We take one basic rack BR258.We choose a color for this rack.We choose a glass of our collection.From now on this color will represent this specific glass.We always add firstly one full drop extender.
- Our glass should fit in this extender.Then we add one or more E2 half drop extenders until we reach the hight of the glass.
- We always measure the internal height of rack and extender. The rack BR258 has internal height 8.3 cm and the extender 4.1 cm.
- Thus it is easy to identify we glass is inside the rack and has fast inventory check.
- You find bellow all the information you need for the racks and the extenders.



CHOOSE THE CORRECT EXTENDER

1.Measure the maximum diameter of your glass (stemware or tumbler) to determine the number of compartments.

2.Measure the maximum height of your glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

94,6x60,9 cm | 163,4 cm

Housekeeping reinvented! Create a custom chambermaid trolley to suit your needs.The Mundus can be equipped individually. Not bing is off the shelf,it is all tailor made.The trolley comes with a long list of practical equipment.Instead of standard configu rations,we offer variety,meaning that the chambermaid trolley is always ready for use and is a perfect fit for any job in every establishment.

Main features

• Ability to adapt to aesthetics your standards, choosing any combination of the 3 skeleton colors, 3 colors of fabrics and 5 finishes surface you want!

• Hybrid frame construction: use steel in the inner frame for maximum strength, and aluminum profile in Trim for reduced weight and easy movement

• Perimeter protection at every corner the cart to avoid injuries to your walls (all-round bumper profile).

• Excellent weight resistance: every shelf safely withstand at least 50 kg load.

• Drawer with soft function closing

• Wheels with heavy duty double bearings, special specifications for each size:
Mundus 9 & 11: 4 rotating wheels 200 mm plus a fifth at center (160 mm) with rubber, for easy field maneuvers
Mundus 7:
2 spinning wheels and 2 fixed (200 mm)
Mundus 5:
4 spinning wheels (125 mm).
